

Instructions for Use

# Angela

*An energetic tool that cleanses your space of negative energies and fills it with harmony.*

STEP ONE

## Preparation

Carefully remove the cardboard insert and keep it — you will need it to extinguish the candle.

Place the candle on a white saucer, away from all flammable objects.

STEP TWO

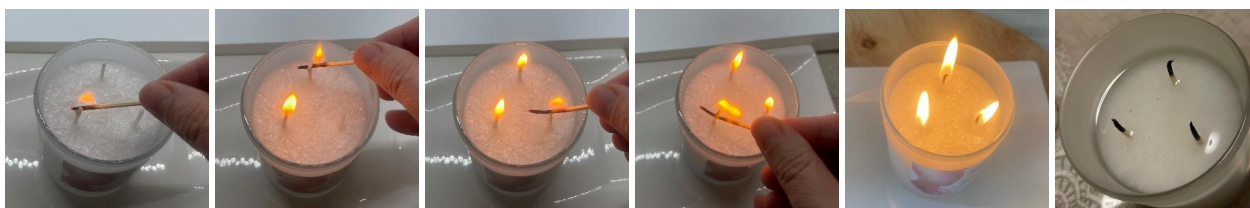

## Lighting

Use long matches or a wooden stick — never a lighter.

The label should face toward you.

Lighting order: left wick, top wick, right wick — draw the match once more to the first wick to complete the triangle.

Always light it with the intention that it works for your highest good.

STEP THREE

## While Burning

---

Let it burn until the top layer has completely melted.

The effect is visible as bubbles — this indicates space cleansing.

Do not let it burn for more than 1 hour per day. Ventilate the room afterward.

Extinguish with the cardboard fan — never by blowing.

STEP FOUR

## After Extinguishing

---

Do not move the candle until the crystals have solidified again.

Re-light as needed — even every day.

STEP FIVE

## Final Phase — Auto-Clean

---

A black mark appears on the rim of the glass.

The flames grow tall and swirling — up to 30 cm.

The candle extinguishes itself, releasing white smoke like incense.

Caution: The glass is very hot — do not touch it.

STEP SIX

## Conclusion

After 10 minutes, use a spoon to remove the organite. Place on paper and let it cool.

Bury the organite in soil or a flower pot in the same orientation as in the candle.

Dispose of the empty glass in the glass recycling bin.

## A candle that breathes with you

Creates a connection with angelic energy and raises the vibration of your space.	Brings a sense of peace, safety and inner comfort.	Supports you in meditation, prayer and spiritual development.
Helps with stress release and opening of the heart.	Especially suited for moments when you need gentle support and guidance.	While burning, it creates a sacred environment to reconnect with yourself and sense the angels.

*"Angela gives you the feeling that you are never alone."*

Handmade in Slovenia · Natural ingredients · Orgonite & crystals
